

# **American Chemical Society St. Louis Award Symposium**

**Friday, November 2, 2018, 1-5 PM**

**Erlanger Auditorium, Washington**

**University School of Medicine**

*Honoring*

**Dr. James W. Janetka**

**Associate Professor, Department of Biochemistry and  
Molecular Biophysics, Washington University in St. Louis**

## **Mimicking Nature's Biomolecules in Transformational Drug Discovery**

**Dr. James Janetka**

*From Ligands and Substrates to Drugs:  
The Power of Rational Design*

**Dr. David Crich, Wayne State University**

*Shaping Next Generation Aminoglycoside  
Antibiotics for Treatment of Multidrug  
Resistant Diseases*

**Dr. Robert Galemmo, ProteXase Therapeutics**

*Adventures in drug hunting: Taking a  
hint from Nature and the literature*

**Dr. John Talley, Euclises Pharmaceuticals**

*Discovery of Cox-2 inhibitors*

**Dr. Tomi Sawyer, Merck & Co.**

*Peptide Drug Hunter: An Extraordinary  
Trek into Intracellular Target Space*
